of all others similarly situated,

Plaintiffs,

vs.

PEOPLECONNECT, INC., a Delaware
Corporation,

Defendant.

Case No.: 3:20-cv-09203-EMC

Judge Edward M. Chen

**DECLARATION OF STEVEN WEISBROT, ESQ., IN SUPPORT OF PLAINTIFF'S
NOTICE OF MOTION AND MOTION FOR CLASS CERTIFICATION**

1 I, Steven Weisbrot, Esq., hereby declare as follows:

2 **Executive Summary of Opinions**

3 1. Opinion 1: As discussed below, the notice plan I recommend in this case (the
4 “Notice Plan”) is based on experience in connection with thousands of class action notice plans.

5 2. Opinion 2: The Notice Plan is robust, consistent with court-approved notice
6 and administration plans in many other class action cases, and meets all applicable standards and
7 requirements, including compliance with Fed. R. Civ. P. 23.

8 3. Opinion 3: The Notice Plan provides strategically selected notice methods
9 which are designed to provide notice to potential Class Members by utilizing various media
10 forums.

11 4. Opinion 4: The Notice Plan also provides for the implementation of a
12 dedicated website and a toll-free telephone line where potential Class Members can learn more
13 about their rights and options pursuant to the terms of the litigation.

Cal.); *Haynes Properties, LLC, et al. v. Burley Tobacco Growers Cooperative Association*, No. 20-CI-332 (Kentucky State Court); *Daren Michael Shields v State Farm Mutual Auto Insurance Company*, No. 6:19-cv-0159 (W.D. My CV and disclosures pursuant to Rule 26 of the Federal Rules of Civil Procedure is also included with this report as **Attachment 2**.

Assignment & Background

14. I was retained with Angeion by counsel for the Plaintiffs in this action (“Counsel”) to provide expert analysis and, if requested, expert testimony, regarding notice plans and administration if a class is certified against PEOPLECONNECT, INC., a Delaware Corporation (“Defendant”) for the alleged wrongful conduct described in Plaintiffs’ Class Action Complaint.

15. My assignment in this matter includes assessing how to provide the best notice

1 practicable under the circumstances, fulfilling due process requirements and comporting with
2 Rule 23 of the Federal Rules of Civil Procedure should a class be certified. In forming my
3 opinions regarding providing notice in this action, I have drawn from my extensive class action
4 experience as well as that of my team.

5 16. I will also discuss Angeion's experience in administering class action settlements,
6 including receiving and reviewing claim forms and distributing settlement benefits to class
7 members.

8 17. Based on the Class Action Complaint(s) and instructions from Counsel, I assume
9 the following class definition:

10 All persons residing in the State of California who are not registered users
11 of Classmates.com and whose names and yearbook photographs are or were
12 searchable on the Classmates.com website, where at least one such
13 yearbook photograph became searchable for the first time on or after
14 December 18, 2018.

15 18. Angeion is being compensated for my work in this matter at a rate of \$450 per
16 hour. Angeion is being compensated for the work of other Angeion consultants assisting me on
17 this matter (as is common practice, with them working at my direction and with my supervision)
18 at hourly rates of equal or less than \$185. No part of my compensation, or that of Angeion,
19 depends on the outcome of this litigation. Angeion also has not been promised any favoritism in
20 connection with any notice plan or administration should the Court certify this matter for class
21 treatment—whether on a contested basis or settlement.

22 **Notice Plan Details**

23 19. The media campaign components of the Notice Plan are designed to deliver
24 notification to the overwhelming majority of potential Class Members, in excess of normal
25 thresholds authorized in similar settlements, and with an approximate 95.06% reach and an
26 average frequency of 3.20 times.

27 20. The 95.06% reach is calculated using objective syndicated advertising data relied

upon by most advertising agencies and brand advertisers. What this means in practice is that 95.06% of our Target Audience will see a digital advertisement concerning the litigation an average of 3.20 times each.

21. The 95.06% reach approximation is for the media campaign components of the recommended notice plan and does not include the dedicated website or toll-free telephone line, which are difficult to measure in terms of reach percentage but will nonetheless provide additional awareness and further diffuse news of the litigation to potential Class Members.

22. The Federal Judicial Center states that a publication notice plan that reaches 70% of class members is one that reaches a “high percentage” and is within the “norm.” Barbara J. Rothstein & Thomas E. Willging, Federal Judicial Center, “Managing Class Action Litigation: A Pocket Guide for Judges”, at 27 (3d Ed. 2010). As such, reaching the 95.06% if the class is significantly higher than what is accepted in many similar cases.

Programmatic Display Advertising Campaign & Target Audience Characteristics

23. The Notice Plan will utilize a form of internet advertising known as Programmatic Display Advertising,² which is the leading method of buying digital advertisements in the United States to provide notice to potential Class Members.

24. The media notice outlined below is strategically designed to provide notice of the litigation to potential Class Members by driving them to the dedicated website where they can learn more about the litigation, including their rights and options.

25. To develop the media notice campaign and to verify its effectiveness, the media

² Programmatic Display Advertising is a trusted method specifically utilized to reach defined target audiences. It has been reported that U.S. advertisers spent nearly \$105.99 billion on programmatic display advertising in 2021, and it is estimated that approximately \$123.22 billion will be spent on programmatic display advertising 2022. See <https://www.emarketer.com/content/us-programmatic-digital-display-ad-spending-2022>. In laypeople’s terms, programmatic display advertising is a method of advertising where an algorithm identifies and examines demographic profiles and uses advanced technology to place advertisements on the websites where members of the audience are most likely to visit (these websites are accessible on computers, mobile phones and tablets).

team analyzed data from 2022 comScore Multi-Platform/MRI Simmons USA Fusion³ to profile potential Class Members and arrive at an appropriate Target Audience (the “Target Audience”) based on the class definitions. Specifically, the following syndicated research definition was used to profile potential Class Members: **Adults 18+** and **State Group Codes: California**.

26. Based on the Target Audience definition used, the size of the Target Audience for the media notice campaign is estimated to be approximately 28,719,000 individuals.

27. It is important to note that the Target Audience is distinct from the class definitions, as is commonplace in class action notice plans. Utilizing a proxy audience maximizes the efficacy of the Notice Plan and is considered a best practice among media planners and class action notice experts alike. Using proxy audiences is also commonplace in both class action litigation and advertising generally.⁴

28. Additionally, the Target Audience is based on objective syndicated data, which is routinely used by advertising agencies and experts to understand the demographics, shopping habits and attitudes of the consumers that they are seeking to reach.⁵ Using this form of objective

³ GfK MediaMark Research and Intelligence LLC (“GfK MRI”) provides demographic, brand preference and media-use habits, and captures in-depth information on consumer media choices, attitudes, and consumption of products and services in nearly 600 categories. comSCORE, Inc. (“comSCORE”) is a leading cross-platform measurement and analytics company that precisely measures audiences, brands, and consumer behavior, capturing 1.9 trillion global interactions monthly. comSCORE’s proprietary digital audience measurement methodology allows marketers to calculate audience reach in a manner not affected by variables such as cookie deletion and cookie blocking/rejection, allowing these audiences to be reach more effectively. comSCORE operates in more than 75 countries, including the United States, serving over 3,200 clients worldwide.

⁴ If the total population base (or number of class members) is unknown, it is accepted advertising and communication practice to use a proxy-media definition, which is based on accepted media research tools and methods that will allow the notice expert to establish that number. The percentage of the population reached by supporting media can then be established. *See Duke Law School, Guidelines and Best Practices Implementing 2018 Amendments to Rule 23 Class Action Settlement Provisions*, at 56.

⁵ The notice plan should include an analysis of the makeup of the class. The target audience should be defined and quantified. This can be established through using a known group of customers, or it can be based on a proxy-media definition. Both methods have been accepted by (footnote continued)

1 data will allow the parties to report the reach and frequency with confidence that the reach
 2 percentage and the number of exposure opportunities comply with due process and exceed the
 3 Federal Judicial Center's threshold as to reasonableness in notification programs.

4 29. Virtually all professional advertising agencies and commercial media departments
 5 use objective syndicated data tools, like the ones described above, to quantify net reach. Sources
 6 like these guarantee that advertising placements can be measured against an objective basis and
 7 confirm that the reporting statistics are not overstated. Objective syndicated data tools are
 8 ubiquitous tools in a media planner's arsenal and are regularly accepted by courts in evaluating
 9 the efficacy of a media plan or its component parts.

10 30. Understanding the socioeconomic characteristics, interests and practices of a
 11 target group aids in the proper selection of media to reach that target. Here, the Target Audience
 12 has been reported to have the following characteristics:

13 65.50% are ages 18-54, with a median age of 46 years old;

14 51.26% are female; 48.74% are male;

15 48.23% are now married;

16 38.84% have children;

17 34.82% have received a bachelor's or post-graduate degree;

18 43.94% are currently employed full time;

19 The average household income is \$92,200; and

20 85.02% have used social media in the last 30 days.

21 31. To identify the best vehicles to deliver messaging to the Target Audience, media
 22 quintiles, which measure the degree to which an audience uses media relative to the general
 23 population, were reviewed. Here, the objective syndicated data shows that members of the Target
 24 Audience spend an average of approximately 30.6 hours per month on the internet.

25
 26
 27 the courts and, more generally, by the advertising industry, to determine a population base. Id at 56.

32. Given the strength of digital advertising, as well as our Target Audience's internet use, we recommend utilizing a robust internet advertising campaign to reach potential Class Members. This media schedule will allow us to deliver an effective reach level and frequency, which will provide due and proper notice to the Class.

33. Multiple targeting layers will be implemented into the programmatic campaign to help ensure delivery to potential Class Members, inclusive of the below tactics. Additionally, to the extent there is available data by school, the targeting will be adjusted accordingly.

Look-a-like Modeling: This technique utilizes data methods to build a look-a-like audience against known Class Members.

Audience Targeting: This technique utilizes technology and data to serve the impressions to the intended audience based on demographics, purchase behaviors and interests.

Site Retargeting: This technique is a targeting method used to reach potential Class Members who have already visited the dedicated website. This allows Angeion to provide a potential Class Member sufficient exposure to an advertisement about the litigation.

Geotargeting: The campaign will be targeted to the state of California.

34. To combat the possibility of non-human viewership of the digital advertisements and to verify effective unique placements, Angeion employs services such as Oracle's BlueKai, Adobe's Audience Manger, and/or Lotame. Further, online ad verification and security providers such as Comscore Content Activation, DoubleVerify, Grapeshot, Peer39 and Moat may be deployed to provide a higher quality of service to ad performance.

Social Media Campaign

35. The social media campaign component of the Notice Plan will utilize two of the

1 leading social media platforms⁶ in the United States: Facebook and Instagram. The social media
 2 campaign uses an interest-based approach which focuses on the interests that users exhibit while
 3 on the social media platforms, capitalizing on the Target Audience's propensity to engage in
 4 social media (85.02% of the Target Audience have used social media in the last 30 days).

5 36. The social media campaign will engage with the Target Audience via a mix of
 6 news feed and story units to optimize performance via each platform's respective desktop site,
 7 mobile site, and mobile app. For example, Facebook image ads will appear natively in desktop
 8 newsfeeds (on Facebook.com) and mobile app newsfeeds (via the Facebook app or Facebook.com
 9 mobile site), and on desktops via right-column ads.

10 37. Additionally, specific tactics will be implemented to further qualify and deliver
 11 impressions to the Target Audience. The social media ads will be targeted to the state of
 12 California.

13 38. The social media campaign will coincide with the programmatic display
 14 advertising portion of the Notice Plan. Combined, these media strategies are designed to deliver
 15 approximately 83 million impressions.

16 39. Throughout these campaigns, Angeion will analyze, monitor, and make any
 17 necessary advertising adjustments to deliver the most successful advertisements to potential Class
 18 Members.

19 **Paid Search Campaign**

20 40. The paid search campaign component of the Notice Plan will incorporate search
 21 engine optimization to help drive potential Class Members who are actively searching for
 22 information about this action to the dedicated website. Paid search ads will complement the
 23 programmatic and social media campaigns, as search engines are frequently used to locate a
 24

25
 26 ⁶ In the United States in 2021, Facebook had approximately 302.28 million users;
 27 Instagram had approximately 118.9 million users. See:
<https://www.statista.com/statistics/408971/number-of-us-facebook-users/>;
<https://www.statista.com/statistics/293771/number-of-us-instagram-users/>

specific website, rather than a person typing in the URL. Search terms would relate to not only the action itself but also the subject-matter of the litigation. In other words, the paid search ads are driven by the individual user's search activity, such that if that individual searches for (or has recently searched for) the litigation or other terms related to the litigation that individual could be served with an advertisement directing them to the dedicated website.

Publication

41. The Notice Plan also includes publication in the California edition of *People* magazine. Notice of the litigation would be published in a full page, black and white ad. A chart showing the circulation of *People* and its circulation amongst the target audience is below:

Publication	Circulation	Target Audience
<i>People</i> – California Edition	311,000	2,900,000

42. Additionally, notice of the litigation will be published in California's top newspapers. A list of these newspapers, their geographic coverage and circulation is provided in the chart below.

Plain Language Notice Design

43. The proposed Notice forms used in this matter will be designed to be “noticed,” reviewed, and by presenting the information in plain language, understood by Class Members. The design of the notices will follow the principles embodied in the Federal Judicial Center’s illustrative “model” notices posted at www.fjc.gov. The notice forms will contain plain-language summaries of key information about the rights and options of Class Members, including the nature of the action, the definition of the class certified, the class claims, issues, or defenses, that the Court will exclude any Class Member who requests exclusion, the time and manner for requesting exclusion or objecting to the settlement (in the event the matter is settled) and the binding effect of a class judgment. Consistent with normal practice, prior to being delivered and published, all notice documents will undergo a final edit for accuracy.

44. Rule 23(c)(2) of the Federal Rules of Civil Procedure requires class action notices to be written in “plain, easily understood language.” Angeion maintains a strong commitment to adhering to this requirement, drawing on its experience and expertise to craft notices that

effectively convey the necessary information to Class Members in plain language.

Dedicated Website and Toll-Free Telephone Support

45. The Notice Plan will also implement the creation of a case-specific website, where Class Members can easily view general information about this litigation, and review relevant Court documents, such as the complaint and class certification order. The website will be designed to be user-friendly and make it easy for Class Members to find information about this matter, including the claims at issue, the defendant's defenses, and applicable deadlines. The website will also have a "Contact Us" page whereby Class Members can send an email with any additional questions to a dedicated email address. Likewise, Class Members will also be able to submit an exclusion request online via the website.

46. A toll-free hotline devoted to this case will be implemented to further apprise Class Members of their rights and options pursuant to the terms of the litigation. The toll-free hotline will utilize an interactive voice response ("IVR") system to provide Class Members with responses to frequently asked questions and provide essential information regarding the litigation. This hotline will be accessible 24 hours a day, 7 days a week.

47. This report describes the reach and frequency evidence which courts systemically rely upon in reviewing class action publication notice programs for adequacy. The reach percentage exceeds the guidelines as set forth in the Federal Judicial Center's Judges' Class Action Notice and Claims Process Checklist and Plain Language Guide to effectuate a notice program which reaches a high degree of Class Members.

48. Specifically, the media campaign portions of the Notice Plan are designed to deliver an approximate 95.06% reach with an average frequency of 3.20 times each. It should be noted that the 95.06% reach approximation does not include the dedicated website or the toll-free hotline, as these components are difficult to measure in terms of reach.

49. The Notice Plan outlined above includes a comprehensive and strategically designed media campaign consisting of state-of-the-art internet advertising, a social media campaign utilizing several leading social media platforms, a paid search campaign, and print

1 publication. The Notice Plan also provides for the implementation of a dedicated website and
2 toll-free hotline to further inform Class Members of their rights and options in the litigation.

3 **Administrative Experience**

4 **Claims Processing**

5 50. To the extent there is at some point a claim filing process, Angeion would
6 recommend a streamlined online claim form made available via the dedicated website. The online
7 form would be designed to be user-friendly, and where applicable, could be pre-populated with
8 Class Member information that is provided to Angeion to simplify the Class Member experience.
9 Class Members with pre-populated online claim forms would be able to validate or update the
10 information provided. The online claim form would also include plain language instructions for
11 Class Members to follow. Class Members would also be able to fully complete and submit an
12 online claim where pre-populated information is not available. Should supporting documentation
13 be required, the online claim form will allow Class Members to easily update documentation in
14 support of their claim.

15 51. Angeion would also recommend allowing Class Members to download a claim
16 form to complete and submit via mail and/or email, along with any supporting documentation, if
17 required.

18 52. Angeion is experienced in reviewing and evaluating claim form submissions,
19 ranging from simple to complex submissions with detailed document review to determine
20 eligibility across various case types. By way of example in terms of complex submissions, in
21 *Dickerson v. York International Corporation and Johnson Controls, Inc.*, No. 1:15-cv-01105
22 (M.D. Pa.), Angeion was tasked with specifically identifying eligible copper evaporator coils and
23 copper condenser coils (“copper coils”) by verifying eligibility against lists provided by the
24 defendant that contained model numbers and serial number prefixes. Angeion further evaluated
25 claims made against the defendant’s available warranty data. Angeion reviewed documentation
26 to identify costs incurred by the class members that specifically pertain to copper coil failures and
27 copper coil replacements, while simultaneously reviewing and excluding non-relevant costs and

1 repair descriptions provided on lengthy invoices submitted by class members and evaluating
2 eligibility of the incurred expenses limited by the warranty terms.

3 53. Similarly, in *Cole v. NIBCO, Inc.*, No. 3:13-cv-07871 (D.N.J.), Angeion was
4 tasked with evaluating claims for documentation demonstrating unreimbursed costs specifically
5 incurred in connection with: (a) the repair or replacement of the pertinent section(s) of Tubing,
6 Fittings and/or Clamps as a direct result of a Qualifying Leak (as defined in the Settlement
7 Agreement); (b) the repair or replacement of other property damaged as a direct result of a
8 Qualifying Leak; and (c) the material and labor costs reasonably necessary to bring the residential
9 or commercial structure and its contents back to the same finish and quality as existed before the
10 Qualifying Leak. Class members may also qualify for a re-plumb remedy if they have experienced
11 three or more separate Qualifying Leaks. The documentation was reviewed in light of the class
12 member responses provided on the Claim Form submission and specifically identify non-relevant
13 costs or items not covered under the terms of the Settlement. Documentation Angeion received
14 includes: Inspection reports; bills of sale; purchase orders; builder or plumbing records;
15 correspondence identifying Tubing, Fittings and/or Clamps in the property; Reports from
16 plumbers, engineers, architects or home inspectors identifying Tubing, Fittings, and/or Clamps in
17 the property; photographs; repair estimates or bids; evaluation of physical Tubing, Fittings and/or
18 Clamps submitted by class members; personal releases/settlements entered into by the class
19 members.

20 54. In the class action settlement *In re Chrysler-Dodge-Jeep EcoDiesel Marketing,*
21 *Sales Practices, and Products Liability Litigation*, No. 3:17-cv-02777 (N.D. Cal.), Angeion was
22 tasked with auditing claims processing performed by an outside entity, including confirming the
23 class member is eligible for payment, confirming the VIN provided is an eligible VIN under the
24 Settlement, the class member has properly documented ownership or lease requirements of the
25 eligible vehicle during the applicable class period, including but not limited to, lease agreements,
26 bill of sale or other documentation demonstrating the total loss of the vehicle; documentation
27 demonstrating the Approved Emissions Modification was performed on the vehicle and

documentation demonstrating the class member accepted the offer prior to issuing payment. Angeion has also been tasked with issuing notices regarding deficiencies on a rolling basis and coordinating ongoing settlement distributions on a rolling basis.

55. Angeion is also experienced in evaluating voluminous claim form submissions. For example, the *In re Apple Device Performance Litigation*, No. 5:18-md-02827 (N.D. Cal.) involved the receipt and review of over 3.1 million claim form submissions; *In re Google Plus Profile Litigation*, No. 5:18-cv-06164 (N.D. Cal.) had over 1.8 million claim form submissions; and *In re: TikTok, Inc., Consumer Privacy Litigation*, No. 1:20-cv-04699 (N.D. Ill.) had over 1.2 million claim form submissions.

56. Angeion has extensive experience in administering data breach and privacy cases. The below chart illustrates notable data breach and privacy cases Angeion has administered:

<i>In re Google Plus Profile Litigation</i>	5:18-cv-06164	US District Court, Northern District of CA

Data Security

57. Angeion recognizes the critical need to secure our physical and network environments and protect data in our custody. It is our commitment to these matters that has made us the go-to administrator for many of the most prominent data security matters of this decade. We are ever improving upon our robust policies, procedures, and infrastructure by periodically updating data security policies as well as our approach to managing data security in response to changes to physical environment, new threats and risks, business circumstances, legal and policy implications, and evolving technical environments.

58. Angeion Group's privacy practices are compliant with the California Consumer Privacy Act, as currently drafted. Consumer data obtained for the delivery of each project is used only for the purposes intended and agreed in advance by all contracted parties, including compliance with orders issued by State or Federal courts as appropriate. Angeion Group imposes additional data security measures for the protection of Personally Identifiable Information (PII) and Personal Health Information (PHI), including redaction, restricted network and physical access on a need-to-know basis, and network access tracking. Angeion Group requires background checks of all employees, requires background checks and ongoing compliance audits of its contractors, and enforces standard protocols for the rapid removal of physical and network access in the event of an employee or contractor termination.

59. Data is transmitted using Transport Layer Security (TLS) 1.3 protocols. Network data is encrypted at rest with the government and financial institution standard of AES 256-bit encryption. We maintain an offline, air-gapped backup copy of all data, ensuring that projects can be administered without interruption.

60. Further, our team stays on top of latest compliance requirements, such as GDPR, HIPAA, PCI DSS, and others, to ensure that our organization is meeting all necessary regulatory obligations as well as aligning to industry best practices and standards set forth by frameworks like CIS and NIST. Angeion is cognizant of the ever-evolving digital landscape and continually improves its security infrastructure and processes, including partnering with best-in-class security

1 service providers. Angeion’s robust policies and processes cover all aspects of information
2 security to form part of an industry leading security and compliance program, which is regularly
3 assessed by independent third parties. Angeion is also committed to a culture of security
4 mindfulness. All employees routinely undergo cybersecurity training to ensure that safeguarding
5 information and cybersecurity vigilance is a core practice in all aspects of the work our teams
6 complete.

7 **Fraud Prevention**

8 61. Angeion maintains a robust, multi-tiered fraud detection system to identify and
9 prevent fraudulent claims submissions. By way of example, we employ an elaborate technical
10 process to identify potential claim duplication. Specifically, a series of database-driven searches
11 are used to find duplicate names and addresses in our claims database. Normally, both the
12 claimant’s name and associated nicknames, as well as the standardized addresses, are compared
13 in the database for purposes of claim duplication detection. However, we may use additional data
14 points, depending on what Google can provide to Angeion. The matching process is normally an
15 exact match algorithm, followed by a looser matching algorithm. In addition to the above process,
16 we detect duplicates based on misspelled names and addresses. We use a combination of matched
17 characters in the name and address and a threshold percentage that is used to detect potential
18 duplicate claims. In this detection routine, we can match commonly misspelled names such as
19 “John” and “Jhon” and address inconsistencies such as “Manhattan St” and “Manhattan Street”
20 as a potential duplicate claim.

21 62. Other fraud prevention measures that we typically apply include:

- 22 • IP Duplication Detection: A report driven from the IP logs that display claims
23 filed from the same IP address. The originating claim IP address is coupled with claimant
24 name and address information to review and determine duplication.
- 25 • IP Switching Detection: A report where the IP address of the claimant changes
26 during the claim filing process. This might indicate that a claimant is trying to avoid a
27 static IP capture from our website.

- Claimant Payment address: Detection of multiple claims filed using the same email.

Class Member Experience

63. Angeion is a pioneer in ensuring that the class member experience is a focal point of the administration process. Fully cognizant that a critical element of administration in this case is meaningful and effective interaction and communication with the Class, we design the customer experience to meet the intricacies of each class action, including custom scripts, FAQs, and other critical class member communications. In every class action that we administer, we strive to make the class member experience seamless, easy, and professional. Our staff undergo extensive training on the specifics of the litigation so that class members receive accurate and consistent information regarding the settlement whether via email or by phone. We pride ourselves on providing rapid response time, generally within one business day.

Distribution of Any Benefits

64. Aside from traditional check payments, Angeion is at the forefront of offering multiple digital payment options, such as PayPal, Venmo, Zelle, ACH transfers, and virtual pre-paid cards.

65. Depending on the volume of eligible awards and case-specific requirements, payments may be disbursed in a single day or staggered over a few business days once the claim process and review has been completed and calculations performed. The primary benefit of staggering the distribution, if deemed appropriate, would be to alleviate overwhelming spikes in contact center and inbox communications, allowing Angeion to provide the best service and responsiveness to Class Members. Once claims are assessed and awards are determined, a reasonable disbursement schedule can be determined based on the details and requirements of the administration.

Conclusion

66. Based on my many years of experience administering class action settlements, it is my opinion that the methods of notice outlined herein will provide full and proper notice to

1 Class Members and that the Notice Plan is the best notice that is practicable under the
2 circumstances and will fully comport with due process and all applicable rules and standards.

IN RE: CHRYSLER-DODGE-JEEP ECODIESEL MARKETING, SALES PRACTICES, AND PRODUCTS LIABILITY LITIGATION

Case No. 3:17-md-02777

The Honorable Edward M. Chen, United States District Court, Northern District of California (February 11, 2019): Also, the parties went through a sufficiently rigorous selection process to select a settlement administrator. See Proc. Guidance for Class Action Sett. ¶ 2; see also Cabraser Decl. ¶¶ 9-10. While the settlement administration costs are significant – an estimated \$1.5 million – they are adequately justified given the size of the class and the relief being provided.

In addition, the Court finds that the language of the class notices (short and long-form) is appropriate and that the means of notice – which includes mail notice, electronic notice, publication notice, and social media "marketing" – is the "best notice...practicable under the circumstances." Fed. R. Civ. P. 23(c)(2)(B); see also Proc. Guidance for Class Action Sett. ¶¶ 3-5, 9 (addressing class notice, opt-outs, and objections). The Court notes that the means of notice has changed somewhat, as explained in the Supplemental Weisbrot Declaration filed on February 8, 2019, so that notice will be more targeted and effective. See generally Docket No. 525 (Supp. Weisbrot Decl.) (addressing, inter alia, press release to be distributed via national newswire service, digital and social media marketing designed to enhance notice, and "reminder" first-class mail notice when AEM becomes available).

Finally, the parties have noted that the proposed settlement bears similarity to the settlement in the Volkswagen MDL. See Proc. Guidance for Class Action Sett. ¶ 11.

Case No. 7:16-cv-06981

(Doc. #101, Ex. F: Weisbrot Decl.) According to Mr. Weisbrot, he has been responsible for the design and implementation of hundreds of class action administration plans, has taught courses on class action claims administration, and has given testimony to the Judicial Conference Committee on Rules of Practice and Procedure on the role of direct mail, email, and digital media in due process notice. Mr. Weisbrot states that the internet banner advertisement campaign will be responsive to search terms relevant to “baby wipes, baby products, baby care products, detergents, sanitizers, baby lotion, [and] diapers,” and will target users who are currently browsing or recently browsed categories “such as parenting, toddlers, baby care, [and] organic products.” (Weisbrot Decl. ¶ 18). According to Mr. Weisbrot, the internet banner advertising campaign will reach seventy percent of the proposed class members at least three times each. (Id. ¶ 9). Accordingly, the Court approves of the manner of notice proposed by the parties as it is reasonable and the best practicable option for confirming the class members receive notice.

The Honorable Ronald B. Rubin, Circuit Court for Montgomery County, Maryland (February 24, 2017): What is impressive to me about this settlement is in addition to all the usual recitation of road racing litanies is that there is going to be a) public notice of a real nature and b) about a matter concerning not just money but public safety and then folks will have the knowledge to decide for themselves whether to take steps to protect themselves or not. And that's probably the best thing a government can do is to arm their citizens with knowledge and then the citizens can make decision. To me that is a key piece of this deal. ***I think the notice provisions are exquisite*** [emphasis added].

Case No. 2:09-cv-08394

The Honorable Christina A. Snyder, United States District Court, Central District of California (May 3, 2016): The Court finds that the Notice provided to the Settlement Class pursuant to the Settlement Agreement and the Preliminary Approval Order has been successful, was the best notice practicable under the circumstances and (1) constituted notice that was reasonably calculated, under the circumstances, to apprise members of the Settlement Class of the pendency of the Action, their right to object to the Settlement, and their right to appear at the Final Approval Hearing; (2) was reasonable and constituted due, adequate, and sufficient notice to all persons entitled to receive notice; and (3) met all applicable requirements of the Federal Rules of Civil Procedure, Due Process, and the rules of the Court.

FERRERA, ET AL. v. SNYDER'S-LANCE, INC.
Case No. 0:13-cv-62496

The Honorable Joan A. Lenard, United States District Court, Southern District of Florida (February 12, 2016): The Court approves, as to form and content, the Long-Form Notice and Short-Form Publication Notice attached to the Memorandum in Support of Motion for Preliminary Approval of Class Action Settlement as Exhibits 1 and 2 to the Stipulation of Settlement. The Court also approves the procedure for disseminating notice of the proposed settlement to the Settlement Class and the Claim Form, as set forth in the Notice and Media Plan attached to the Memorandum in Support of Motion for Preliminary Approval of Class Action Settlement as Exhibits G. The Court finds that the notice to be given constitutes the best notice practicable under the circumstances, and constitutes valid, due, and sufficient notice to the Settlement Class in full compliance with the requirements of applicable law, including the Due Process Clause of the United States Constitution.

IN RE: POOL PRODUCTS DISTRIBUTION MARKET ANTITRUST LITIGATION
MDL No. 2328/Case No. 2:12-md-02328

The Honorable Sarah S. Vance, United States District Court, Eastern District of Louisiana (December 31, 2014): To make up for the lack of individual notice to the remainder of the class, the parties propose a print and web-based plan for publicizing notice. The Court welcomes the inclusion of web-based forms of communication in the plan. The Court finds that the proposed method of notice satisfies the requirements of Rule 23(c)(2)(B) and due process. The direct emailing of notice to those potential class members for whom Hayward and Zodiac have a valid email address, along with publication of notice in print and on the web, is reasonably calculated to apprise class members of the settlement. Moreover, the

JUDICIAL RECOGNITION

plan to combine notice for the Zodiac and Hayward settlements should streamline the process and avoid confusion that might otherwise be caused by a proliferation of notices for different settlements. Therefore, the Court approves the proposed notice forms and the plan of notice.

SOTO, ET AL. v. THE GALLUP ORGANIZATION, INC.

Case No. 0:13-cv-61747

The Honorable Marcia G. Cooke, United States District Court, Southern District of Florida (June 16, 2015): The Court approves the form and substance of the notice of class action settlement described in ¶ 8 of the Agreement and attached to the Agreement as Exhibits A, C and D. The proposed form and method for notifying the Settlement Class Members of the settlement and its terms and conditions meet the requirements of Fed. R. Civ. P. 23(c)(2)(B) and due process, constitute the best notice practicable under the circumstances, and shall constitute due and sufficient notice to all persons and entities entitled to the notice. The Court finds that the proposed notice is clearly designed to advise the Settlement Class Members of their rights.

OTT v. MORTGAGE INVESTORS CORPORATION OF OHIO, INC.

Case No. 3:14-cv-00645

The Honorable Janice M. Stewart, United States District Court, District of Oregon (July 20, 2015): The Notice Plan, in form, method, and content, fully complies with the requirements of Rule 23 and due process, constitutes the best notice practicable under the circumstances, and is due and sufficient notice to all persons entitled thereto. The Court finds that the Notice Plan is reasonably calculated to, under all circumstances, reasonably apprise the persons in the Settlement Class of the pendency of this action, the terms of the Settlement Agreement, and the right to object to the Settlement and to exclude themselves from the Settlement Class.
